

PARIS
23 - 28 APRIL 2018

INTERNATIONAL EXHIBITION
FOR CONSTRUCTION
AND INFRASTRUCTURE

CO-LOCATED WITH

PRESS INVITATION

INTERMAT DEMO: new construction equipment tested in real-life conditions

at INTERMAT Paris (23 - 28 April)

Paris-Nord Villepinte Exhibition Centre

As the only international trade show to offer an outdoor zone dedicated to demonstrations where manufacturers can highlight their equipment in action, the tradeshow INTERMAT Paris offers its exhibitors a unique space throughout the duration of the show: from 23 to 28 April 2018.

The art of showcasing the performance of construction machinery

Building and construction professionals can discover the know-how of manufacturers and the latest equipment developments towards increased security, productivity, etc. These live demonstrations will highlight the performance of machinery and equipment in real-life user conditions

More than **30,000 sqm of outdoor space** is dedicated to the demonstration of construction

machinery: backhoe loaders, excavators, levellers, screening machines, crushers, demolition equipment and machinery, etc.

The following companies will exhibit their latest innovation at INTERMAT DEMO:

BOBCAT: the company, a subsidiary of the Doosan group, has been manufacturing compact equipment for more than 50 years. An industry leader in the design, manufacturing, sales and distribution of compact equipment, in particularly aimed at public works, rental, industry and mining, etc. The company will present its latest compact excavators from 2 to 3 tonnes, its new tracked loader, "T870", and the demonstration of 3D levelling with GPS supervision.

DOOSAN: a world leader specialising in construction equipment, solutions dedicated to water and energy, engines and engineering, the group has been serving its clients and local authorities for more than a century. Doosan will in particular display heavy machinery in action such as the latest wheeled loader "DL420 CVT", and the articulated dumper truck "DA40".

ENGCON: the firm is world leader as an independent manufacturer of tiltrotators. Four different machines in several weight categories will be exhibited on its stand. Two of them will operate all day in real working conditions, using a selection of equipment representative of the brand, including the very latest "EC233" tiltrotator which will be fitted to excavators from 24 to 33 tonnes. Two other machines will be available for testing, so that visiting excavator drivers can see all the benefits of the tiltrotator for themselves. To do so, they can book their test on the [Engcon France website](#) to benefit from VIP treatment on the day of their visit.

HIAB: the leading provider of on-road load-handling equipment, intelligent services and digitally connected solutions: HIAB offers HIAB loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT truck-mounted forklifts, MULTILIFT demountables, and tail lifts under ZEPRO, DEL, and WALTCO brands. HIAB is organising the third edition of the French heats of the best loader crane operator competition. The company is also launching a new public works crane concept, to be discovered on its stand.

IATST: the company will introduce its latest micro boring machine Excalibur, which is faster, provides higher performance and is very compact. Visitors will thus have the opportunity to discover horizontal guided drilling during a real-life demonstration (registered patent).

KOMATSU: established in Belgium, KOMATSU imports and distributes construction and mining equipment in European and North African countries. The company will present its brand new "PW148-11" wheeled excavator, presented with a "Fliegl Komatsu Edition" trailer; its "PC390HRD-11" demolition excavators and its "PC210LCi-11" smart excavator.

KRONENBERGER OECOTEC: the supplier of construction machinery, the German firm offers the opportunity to reduce unloading costs with its screen buckets to screen, mix, crush and aerate ground with one single machine. And with "Holp", Roto Top rotative quick couplers, the company guarantees compactness, flexibility, stability, and adaptability with optimal breakout force.

MB: for more than 15 years, MD has been a world leader in crushing, demolition and recycling, for the design, manufacture and sale of jaw-action bucket crushers. The company will present its "Triple R" system (Reduce-Reuse-Recycle) which was entered in the INTERMAT Innovation Awards.

ROTOTILT: the company supplies tilt systems for backhoe loaders and hydraulic excavators, and offers an exhaustive system based on the Rototilt® (a tiltrotator where the customer selects the commands, functions and accessories using a unique modular technology platform). Rototilt will present its latest innovations on its stand.

STEELWRIST: the company sells, develops and manufactures tiltrotators, quick couplers and accessories for excavators. The company will present several hydraulic working accessories: the "SG40" sorting grapple, the "SB17" screening bucket, and the "HC40" compactor, but also pallet forks, a grading bucket, etc.

THEAM: a French manufacturer of solutions for material conveyors (concrete, asphalt, gravel...), is the world leader of ready mix concrete conveyor belts installed on trucks. The company will present the "Sprider by THEAM" which improves working conditions and reduces the risk of accidents on worksites.

TRIMBLE / SITECH France: SITECH France and Trimble will present their new "EARTHWORKS" automatic grade control platform fitted to excavators.

YANMAR: Yanmar Construction Equipment Europe manufactures and distributes compact construction equipment. The company will present several of its new machines such as its "V80" wheeled loader, its "B95W" wheeled excavator, its "C30R-3TV" dumper and its new "SV60" compact excavator. All of these machines will be presented with several types of couplers to display their different fields of application and their performances.

About the organisers

S.E. INTERMAT brings together the trade organisations of equipment manufacturers and importers:

CISMA, the French association of equipment manufacturers for construction, infrastructure, steel and handling equipment industries;

SEIMAT, the French association of international civil engineering, mining, construction and hoisting equipment industries;

and Comexposium, a European leader in event organisation.

The COMEXPOSIUM Group, one of the world leaders in event organisation, is involved in more than 170 consumer and trade events, covering 11 different sectors of activity such as food, agriculture, fashion, homeland security, construction, high-tech, optics and transport. COMEXPOSIUM hosts 45,000 exhibitors and more than 3 million visitors in 26 countries around the world.

COMEXPOSIUM is developing worldwide through its activities in around thirty countries: Algeria, Argentina, Belgium, Brazil, Canada, China, Germany, India, Indonesia, Italy, Japan, Korea, Monaco, the Netherlands, New Zealand, the Philippines, Qatar, Russia, Singapore, Spain, Thailand, Turkey, the United Arab Emirates, the United Kingdom and the United States. Comexposium is positioned as a creator of exchange and meetings between individuals and business.
